Patent No. US20020146721A1
GENERAL INFORMATION:
APPLICANT: Berka, Randy M.
APPLICANT: Clausen, ID Groth
TITLE OF INVENTION: Methods For Monitoring Multiple Gene
TITLE OF INVENTION: Expression
FILE REFERENCE: 10085,500-US
CURRENT FILING DATE: 2001-10-05
PRIOR PLICATION NUMBER: 09/680,598
PRIOR PLICATION NUMBER: 09/680,596
PRIOR PLICATION NUMBER: 09/680,596
PRIOR PLILING DATE: 2000-10-06
PRIOR PLILOR DATE: 2000-10-06

Anotes Weetor: Lambda Zap; Cells were induced with yeast cell wall extracts equivalent to 50ug/ml glucose in the final concentration. Samples were taken at 0.5, 1, 12 and 24 hours after induction. Equal amounts of RNA from each time point were pooled and used for mRNA isolation."
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Torres-Jerez, I.
